

Hall 1: Drilling & Completion Services

Preliminary Agenda

08.15 **Registration & Morning Refreshments**

09.55 Roundtable Session 1:

Advanced Drilling

Rosneft: Regulating Drilling Pressure as a Solution for Fractured Reservoirs in Eastern Siberia

11.20 **Coffee Break**

11.40 Roundtable Session 2:

Production Drilling

Purneftegaz: Well Construction Using Combined Columns

13.05 **Lunch**

14.45 Roundtable Session 3:

Drilling Fluids

BashNIIneft: Drilling Fluids for Unstable Formations

Ilshat Kamilovich Akhmetshin, Chief Specialist Well Construction Department

PSK Burtehnologii: Experience of using lightweight backfill composition Super-K when cementing production columns at the Lukoil-Komi field: optimization and alternatives

Yuriy Ugol'nikov, Department Head for Cementing, Repair and Insulation Work

Mirrico: Efficient Water-Based Drilling Fluids

15.40 **Coffee Break**

14.45 Roundtable Session 4:

Completions & Cementing

Salym Petroleum Development B.V.: Increasing Well Integrity Through Cement Isolation

17.25 **Close of Conference, Cocktail Reception**

Hall 2: Drilling Control & Operations

Preliminary Agenda

08.15 Registration & Morning Refreshments

09.55 Roundtable Session 1:

Drilling Strategies & Optimization

Salym Petroleum Development B.V.: Reducing Drilling Waste with Pitless Drilling

MOL Group: Baytuganskoye Field: Minimising Well Construction Times and Costs in Small Diameter Wells

Phoenix TSR: TBC

11.20 Coffee Break

11.40 Roundtable Session 2:

Pipe & Pipe Handling

SSC: Predicting and Preventing Fatigue Failure in Drill Pipes

Hardbanding Solutions: TBC

13.05 Lunch

14.45 Roundtable Session 3:

Rig Power & Control

RN Uvatneftegaz: Optimizing the Drilling Cycle

MTU: TBC

15.40 Coffee Break

14.45 Roundtable Session 4:

Advanced Drilling Rigs & Equipment

17.25 Close of Conference, Cocktail Reception

Hall 3: Drilling & Completion Services

Preliminary Agenda

08.15 **Registration & Morning Refreshments**

09.55 Roundtable Session 1:

Workover & Integrity

11.20 **Coffee Break**

11.40 Roundtable Session 2:

Stimulation & Fracturing

BP: Fracturing in a Sandy Viscous Environment ("FracSaVE"). What is it, why consider it and does it offer an option to Develop reserves that have eluded economic access to date?

Martin Rylance, VP GWO Russia, Global Sr. Advisor (Frac & Stim), BP Russia

Rosneft: Development and Implementation of the Hydraulic Fracturing Simulator "RN-GRID"

Alexey Pestrikov, Chief Specialist, R&D and Innovation Department, Rosneft Oil Company

MTU: TBC

13.05 **Lunch**

14.45 Roundtable Session 3:

Waterflood & EOR

PAO Varyoganneftegaz: Results and Development Prospects for Acid Stimulation

Technologies at PAO Varyoganneftegaz

Marat Nikitin, Team Lead, New Technologies Department, PhD

15.40 **Coffee Break**

14.45 Roundtable Session 4:

Artificial Lift & OCTG

17.25 **Close of Conference, Cocktail Reception**
