## Cloud-based Management Software

MANAGE > ANALYSE > PERFORMANCE > INSIGHT

- Safety Management allows clients to assess risk and safety awareness of your workforce and in the future we want to manage on-the-job safety.
- Training Management analyses current and on-going job role compliance, highlight skills and knowledge gaps and allows you to book the training each worker needs to fill those gaps and become fully compliant.
- Learning Management powers the blended learning technologies tracking progress, engagement and performance.
- Competence Management to build your competence frameworks and manage and monitor workforce competence to maximize performance and on the job efficiency.
  - This all comes together to give the clients internal teams full real-time visibility of safety, compliance and competence via **Business intelligence dashboards and reporting**.

SAFETY > COMPLIANCE > COMPETENCE > PERFORMANCE > FULL VISIBILITY > INCREASE EFFICIENCY > REDUCE COSTS
